ABOUT NIT NAGALAND

National Institute of Technology Nagaland, an Institute of National importance is a higher education technical Institute located at Chumukedima (Dimapur), Nagaland. It is one among the ten newly approved NITs by the Government of India in 2009 under the 11th Five Year Plan and it started functioning from the academic year 2010. Initially, this Institute started its journey under the mentorship of National Institute of Technology Silchar in Assam. It functioned in the campus of NIT Silchar for two years. Land for permanent campus was identified for the Institute during January 2012 and it is located at a hilly terrain area at Chumukedima near Dimapur, Nagaland.

E-Cell

E-cell club is about mentoring students for those who have interest in entrepreneurship, start-ups and creates an environment so that he/she can develop the attitude and skills in this domain. Our club provides support to all the budding entrepreneurs and helps shape their ideas and convert them into real world business opportunities.

What Is Paper Trade?

A paper trade is a simulated trade that allows an investor to practice buying and selling without risking real money. The term dates back to a time when (before the proliferation of online trading platforms) aspiring traders would practice on paper before risking money in live markets. While learning, a paper trader records all trades by hand to keep track of hypothetical trading positions, portfolios, and [profits or losses](#). Today, most practice trading

involves the use of an electronic stock market simulator, which looks and feels like an actual trading platform.

Introduction and Overview

- Stockraze will be held on the US stock markets.
- You will be able to invest in stocks that are a part of the NASDAQ, a US stock market index.
- The virtual stock exchange does not involve real money, this is strictly a simulation of the stock exchange.
- Stock prices are influenced by real news so the stock prices will change depending on current affairs and real-time events.
- Only selected stocks can be traded in the virtual stock exchange.
- At the end of 2 days, the team with the highest amount of money (assets and cash) wins.
- Trades can be initiated at any time of the day but are executed only when NASDAQ is open i.e. 7:00 P.M – 1:30 A.M IST.
- One can join the game using the link given on Page 5
- The password to the game is mentioned on Page 5.
- Participants must create their account a day prior to Stockraze (i.e.03/05/2022).
- Participants are advised to go through the entire Participants Handbook before Stockraze.
- one person can hold with only one account

Participants failing to meet above conditions will be disqualified immediately.
